

Installation instructions for trial license

There are **3 folders** in this segment of the MatchID Portal:

Demo Projects

Contains demo material for each individual module.

Projects can be loaded into different MatchID modules and solutions, offering a very fast and easy understanding of each tool.

Installer

Contains the MatchID installer that auto-installs the different modules available as demo.

Manual

Contains the interactive manual for MatchID's solution stack.

Installation procedure:

1. Download and run the installer
2. Activate demo license by sending generated fingerprint to info@matchid.eu
NOTE: this unique code is machine specific, so make sure you install MatchID on the system you plan to use!
NOTE: provide your full name, corporate email address, company or institute, and phone number in your activation request email!
3. MatchID confirms by email once license has been activated
4. Download demo projects from the subsequent folder
5. Download interactive manual for the subsequent folder
6. Load and run demo projects as described in the manual
