

User Meeting 2019 - Time Table

Day	September 3 rd	Day	September 4 th
9:00 – 9:15	Registration & Coffee	Registration & Coffee	
9:15 – 9:45	Welcome & opening	Advanced post-processing: MatchID Apps L. Wittevrongel - MatchID	
9:45 – 10:30	Trends in optical methods P. Lava - MatchID	Experimental fracture analysis of polyethylene films J. Furmanski - Exxon Mobil	
10:30 – 11:00	Coffee break	Coffee break	
11:00 – 11:30	Advanced testing of sports materials J. Vanwalleghem - Bikelabs	Extracting material properties using DIC/VFM with sensitivity-based virtual fields A. Marek - University of Southampton	
11:30 – 12:00	High-Speed material testing with DIC P. Verleysen - University Gent	Large strain flow curve identification for sheet metals S. Coppieters - KU Leuven, S. Cooreman - OCAS	
12:00 – 12:30	Full-field experimental modal analysis using DIC B. Peeters - Siemens	DIC-based model validation and uncertainty quantification D. Moens - KU Leuven	
12:30 – 13:00	Lunch	Lunch	
13:30 – 14:00	The MatchID philosophy P. Lava - MatchID	Virtual Fields Method (VFM) in practice P. Lava - MatchID	
14:00 – 14:30	Optimized experimental setup in practice L. Wittevrongel - MatchID	DIC out-of-the-box: monitoring glacier displacements F. Mayrhofer - University of Vienna	
14:30 – 15:00	Coffee break	Coffee break	
15:00 – 15:30	MatchID post-processing L. Wittevrongel - MatchID	Voice of the customer Group Discussion	
15:30 – 16:00	Performance Analysis in practice (PA Module) P. Lava - MatchID	Feedback Session and wrap up MatchID Team	
16:00 – 16:30	Model Validation in practice (FEVAL/FEDEF Modules) P. Lava - MatchID		
16:30 – 17:00	Social Event		
19:00 – : : .
