

New Release

MatchID
Metrology beyond colors

MatchID 2026.2

New features:

- **Improved performance and optimised visuals:** 2D/3D and variable change functionality while processing
- **Next-generation calibration platform** with improved robustness and accuracy
- **Johnson-Cook plasticity model** for temperature dependence
- **VFM:** Temperature import for temperature-dependent material laws. Compatibility with CMAT.
- **Multi-camera DIC:** full new design and optimised workflow for seamless multi-camera analysis
- **Volume change determination** in back-to-back measurements
